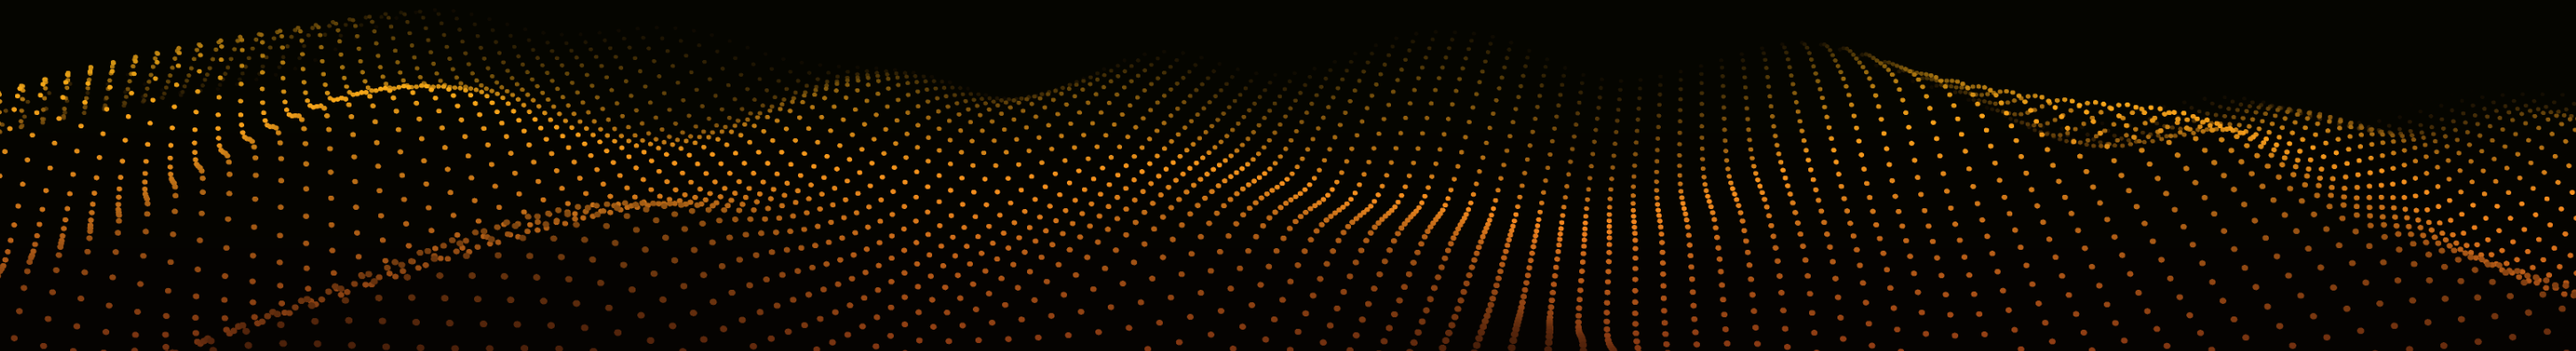
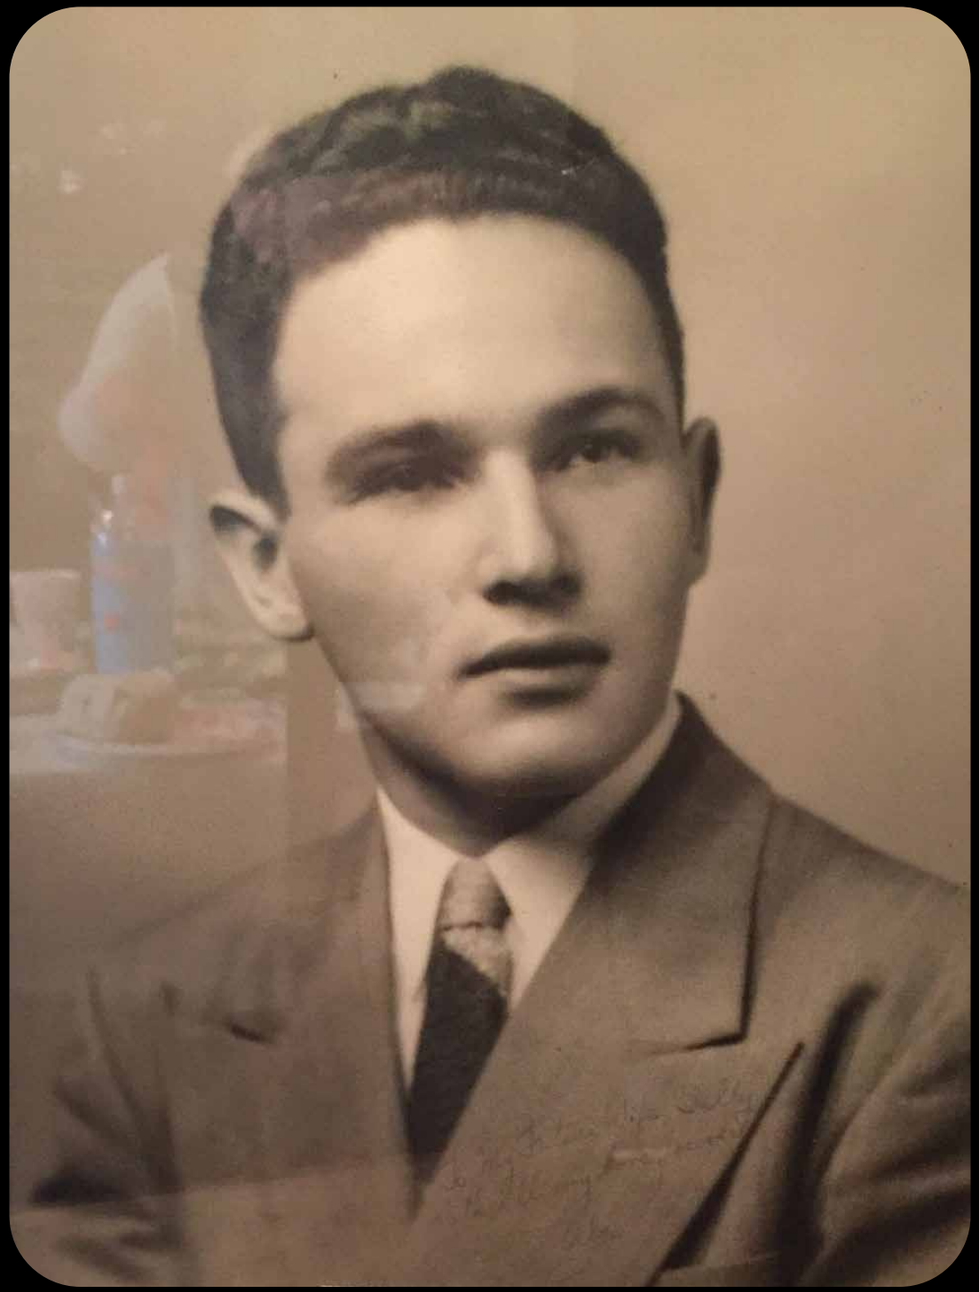
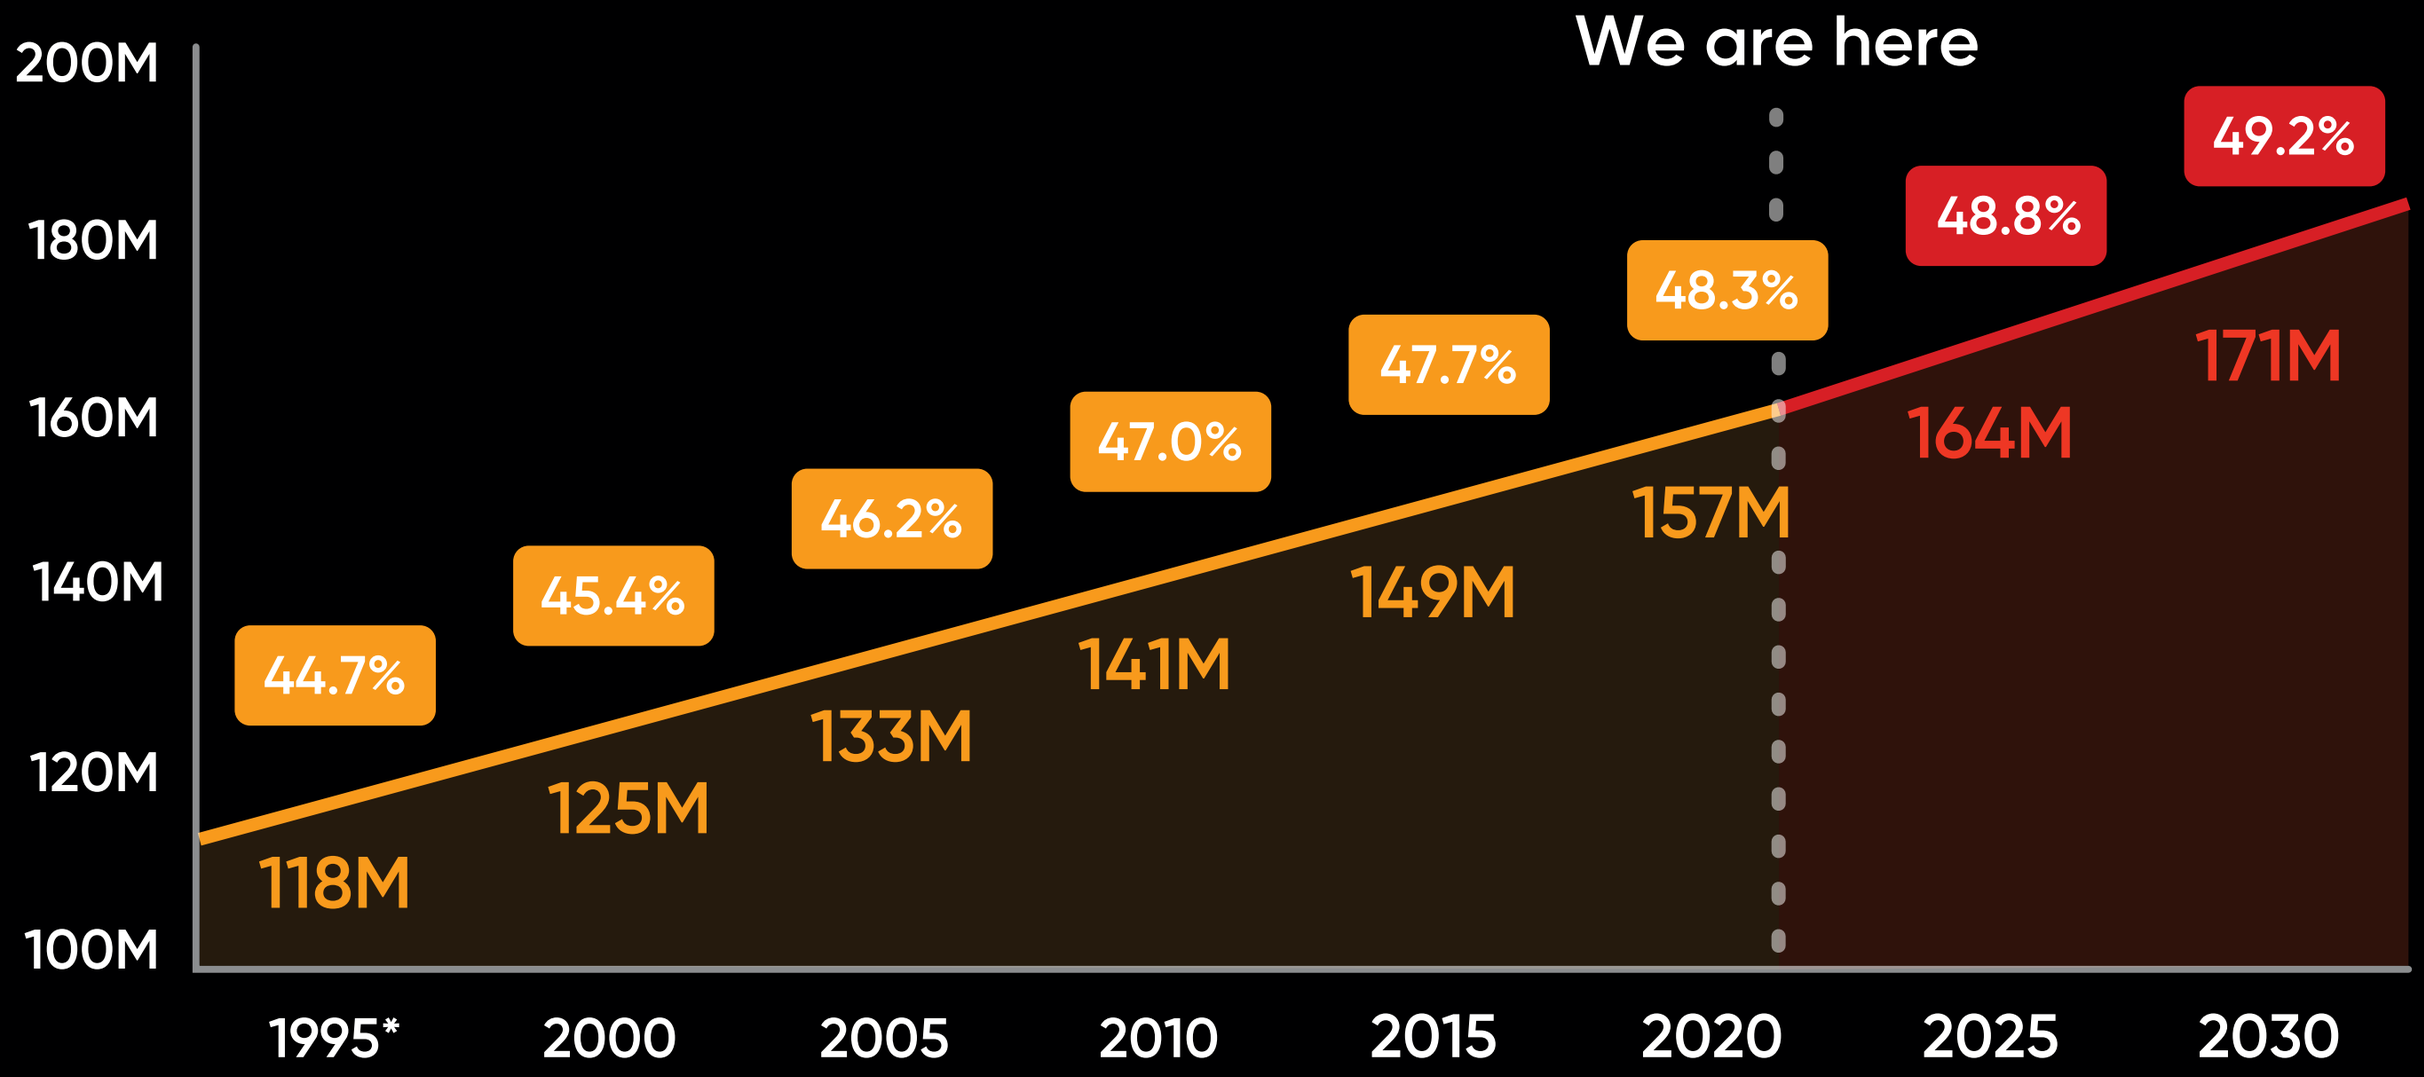
HealthSnap

The simplest way to manage chronic conditions in a **remote care world.**

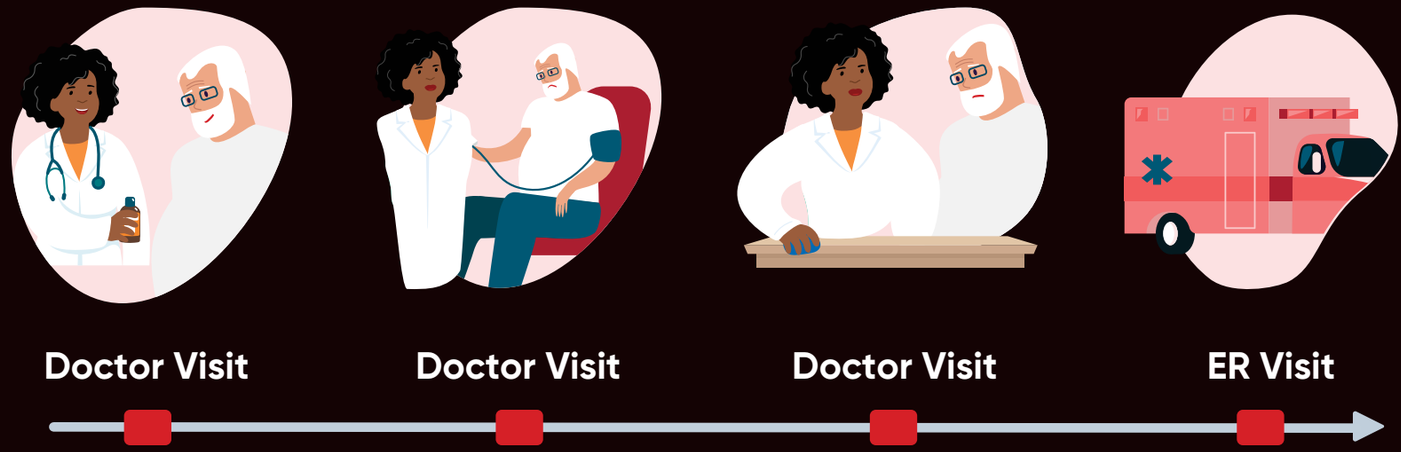




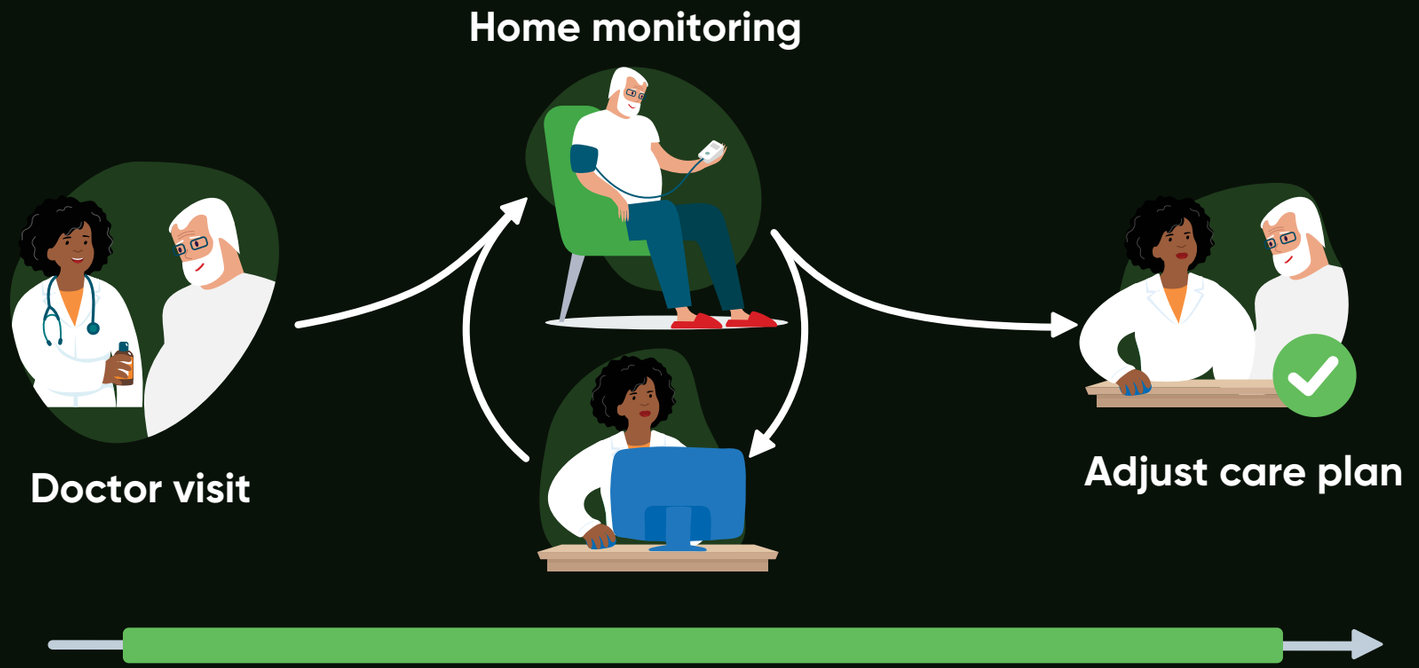
People Living with Chronic Conditions in the U.S.



Reactive, episodic, & delivered in-person



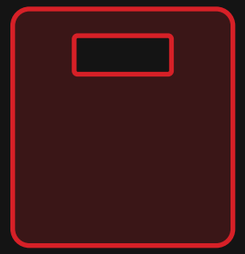
Proactive, continuous, & delivered at home



Why is it difficult to deliver virtual care?

Medical Record Limitations

Designed for in-person acute care



Device Connectivity

Bluetooth and Wi-Fi connectivity issues

Limited Staff

Constrainted staff inhibits scale

Everything a healthcare organization needs to manage

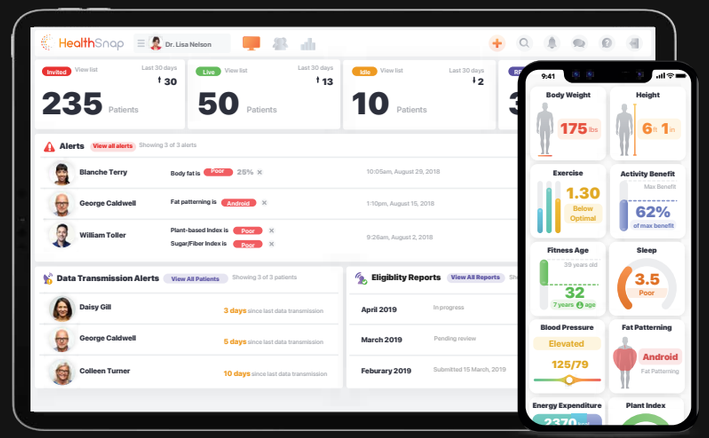
Hypertension

Heart Failure

Obesity

Type II Diabetes

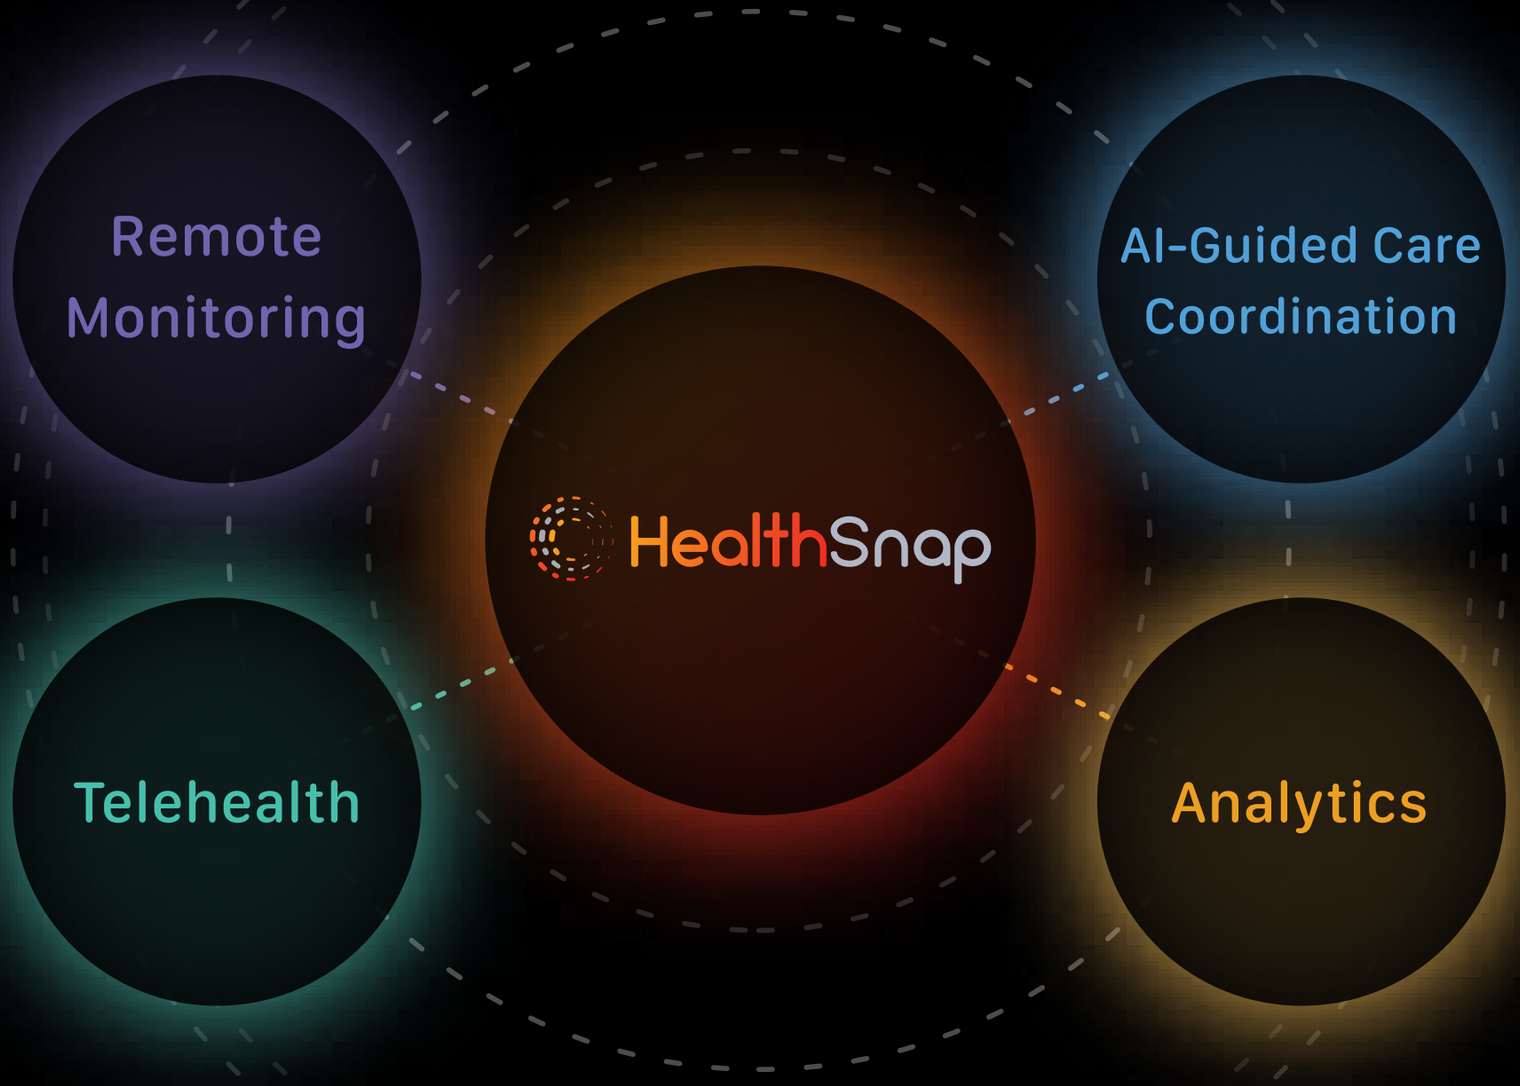
Integrated Virtual Care Platform



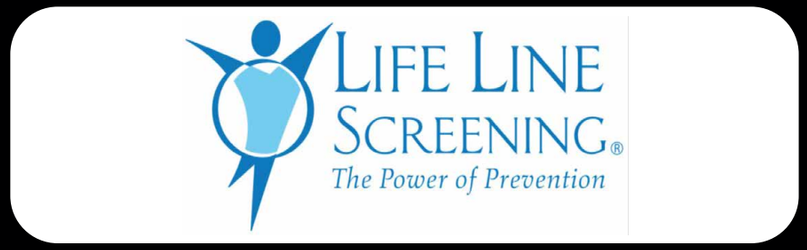
Pre-Configured Cellular Devices

Care Management Services

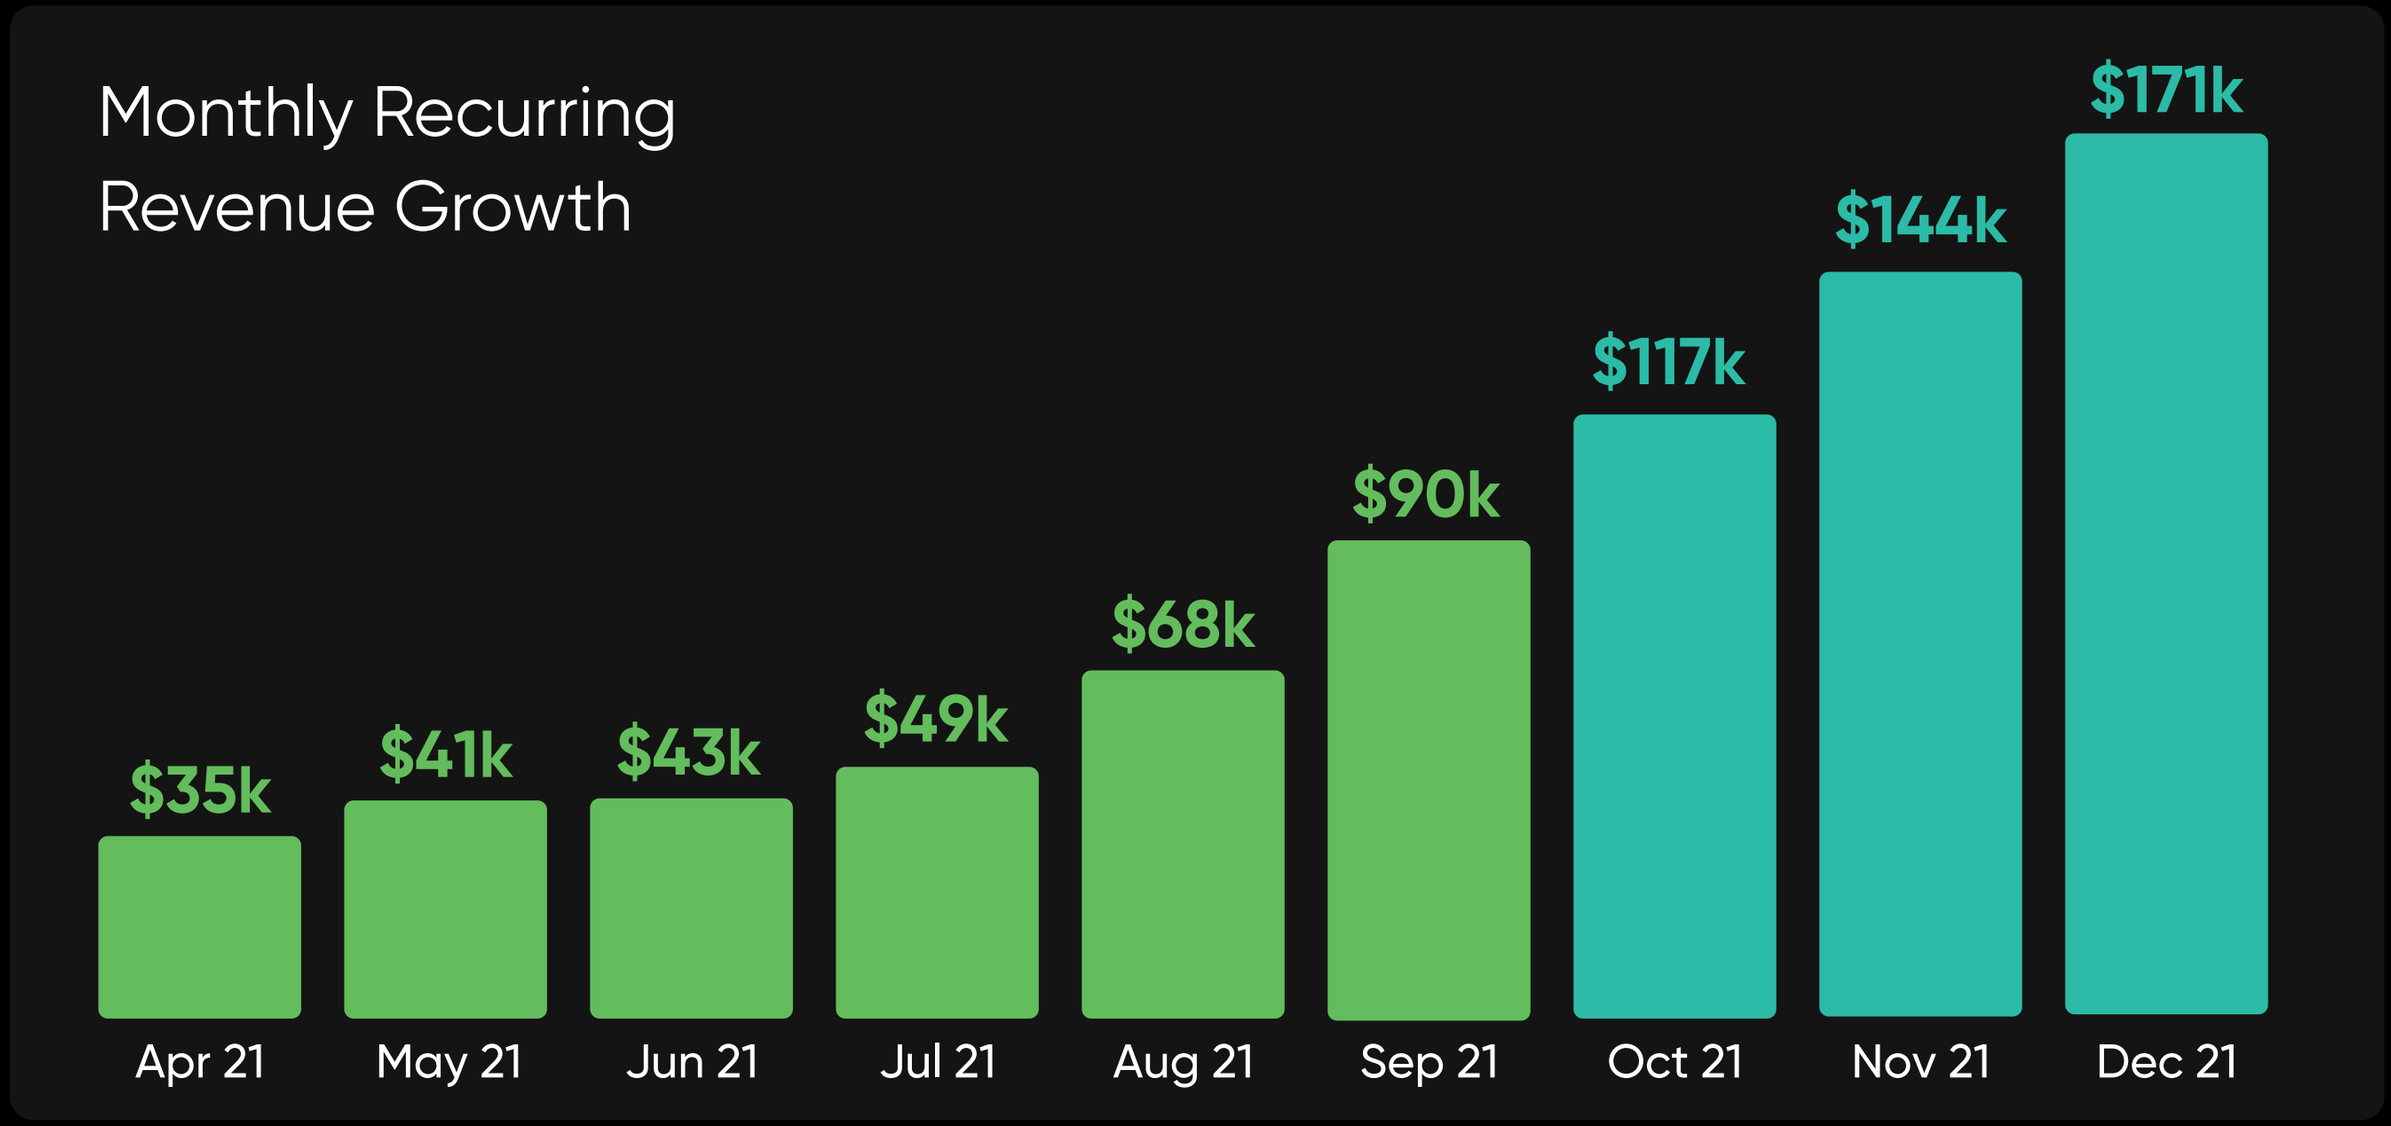
The Operating System for Virtual Chronic Disease Management that integrates with over 80+ EHRs



Top 25 Health Systems are Customers of HealthSnap



Exceeding **$1mm** in ARR in first 12 months



We’re improving patient outcomes

-8mmHg

Systolic blood pressure

-5mmHg

Diastolic blood pressure

-5lbs

Body weight

70%

of patients improved health outcomes
